The Director of Public Works has been authorized by your Board to order changes in work up to \$10,000 for construction contracts. Changes to accommodate field conditions in order to meet the intent of the plans and specifications are not subject to this monetary limitation. Enclosed for your ratification are changes in work which I ordered for this project.

This project has been completed, and it is recommended that your Board accept it on the date indicated in the enclosure.

Implementation of Strategic Plan Goals

The acceptance of this construction contract is consistent with the County Strategic Plan Goal of Service Excellence since acceptance of this completed contract will provide improved infrastructure to better serve the public.

The modification to the contract amount is an increase of \$314.50, while the total value of the contract is \$81,426.00.

Ratification of these changes in work and acceptance of the work of this contract by your Board is in compliance with the acceptance and prompt payment provisions of the Public Contract Code.

Sufficient funds are available in the Board-approved appropriations for this project to cover the costs of these changes and the total value of this contract. A detailed cost breakdown for these changes together with the contract cost summary are included in the enclosure.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This contract for the construction of public works improvements was awarded by your Board to the lowest responsible bidder in accordance with the California Public Contract Code, your Board's directives, and as recommended by the Director of Public Works.

ENVIRONMENTAL DOCUMENTATION

The changes in the work as described above and in the enclosure are within the limits of the Board-approved projects and do not change any conditions which resulted in the original environmental findings.

CONTRACTING PROCESS

This contract provided that the contractor be compensated for changes in the work as a result of changes to the original plans and specifications or changed conditions encountered during the course of construction. The costs of these changes were based on contract unit prices, time and materials methods, or were negotiated under the provisions of the contract specifications. The methods for arriving at the final costs of the changes are included in the enclosures.

Ratification of the requested changes and acceptance of the work of the contract by your Board will ensure the timely closeout of the contract, releasing Departmental and County assets for other construction-related activities.
